The reason for the change

The reason for the change is that the original point model has been too difficult to implement due to our new LMS (Canvas).

The revision in the point allocation is very small, it will only have a minimal impact on the points, and therefore total mark achieved.

Especially for students on the 2nd semester in February 2018

These students must also note that points based on attendance are awarded on the basis of the students' attendance on the 2nd semester only. This means that the students covered by this correction sheet have the opportunity to get the maximum number of points completely on the basis of their activity on the 2nd semester (February-June 2018).

Approval

This correction sheet has been adopted and approved by Business Academy Aarhus on 27 February 2018.
